

Selection Guide

IDEC, a pioneer in the micro-PLC market, is proud to offer so many quality micro programmable logic controllers, from the original Micro-1 to the brand new MicroSmart series. Not all information about our older PLCs has been included in this catalog. Please refer to previous catalogs or call IDEC Technical Support with any questions.

Series	Appearance	Description	Page
MicroSmart		Wide selection of CPU and Expansion modules plus AS-interface communication module	J-5
ONC		Available with SX5 Smart I/O modules to communicate with Interbus	J-29
FA2J		Flat-Pak Modular	J-40
FA3S		Powerhouse	J-42
WindLDR		Software for programming IDEC's PLCs	J-44
WindSRV		Software application to link OPC DDE compliant windows applications to IDEC PLCs	Communications & Networking Section page M-3
